

Historical Assessment: Vendor Gamma (AI Writing Assistant)

- **Date: 2025-01-20**
- **Risk Rating: High**
- **Recommendation: REJECT**
- **Findings: Vendor Gamma proposed an AI tool for 500 users. During the AI Governance audit, it was discovered that Vendor Gamma's Terms of Service allowed them to ingest NFS customer data to train their models. This explicitly violated NFS Policy AI-01. The vendor refused to sign an opt-out addendum, resulting in a full rejection.**
